

# Display/Shelf for Make

## Magazines

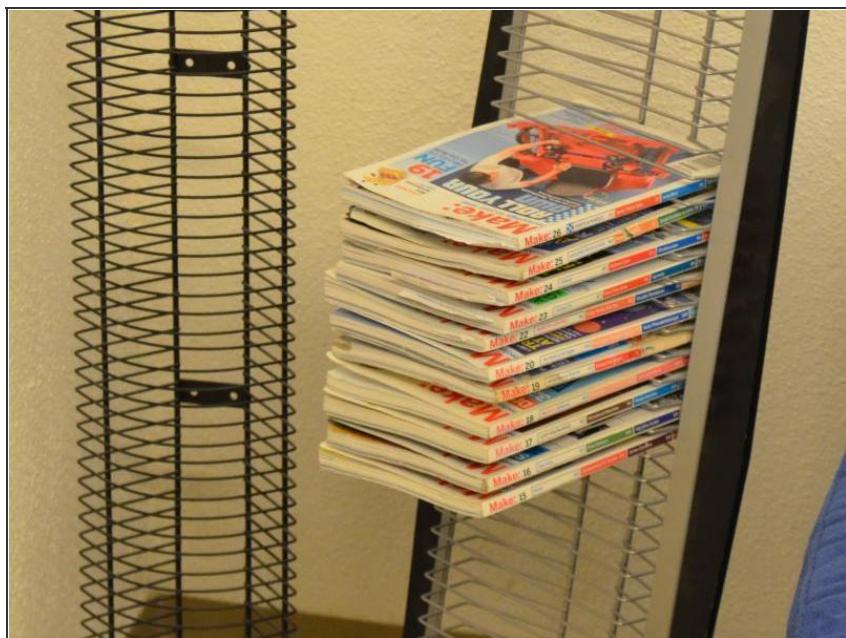

Written By: nuess0r

### **PARTS:**

- [unused DVD shelf \(1\)](#)

## Step 1 — Display/Shelf for Make Magazines

- Take all your Make magazines.
- Start with one magazine and see in which direction you can fit in the magazine into the DVD shelf/rack. When you remove both hands the magazine has to stay in the shelf; else try a different orientation.
- Fill in all the other magazines you proudly own.
- Finished! Select a good location to show your collection. The best place is a hackerspace or other place where the public can read, enjoy and share the Make magazines!

---

Sarcasm in this project is used on occasion. :-)
